

Citrix Certification

FCSI Education is proud to offer the Citrix curriculum along with our comprehensive lineup of vendor-certified training. As the only major computer distributor to be a Citrix-authorized Learning Center (CALC), we offer the courses you need to gain valuable certifications and authorizations.

COURSE#	COURSE TITLE/DESCRIPTION
CTX-302.2	MetaFrame Administration Three-day course provides the knowledge and skills necessary to perform advanced administrative tasks in a Citrix MetaFrame environment. Students receive in-depth training on MetaFrame's enterprise-scale management, heterogeneous client and network connectivity as well as seamless desktop capabilities. Course covers performance optimization, load balancing and advanced system management, and provides the prerequisite knowledge and skills required for future continuing education courses. Course is preparation for the Citrix Certified Administrator (CCA) for MetaFrame 1.8 certification exam.
CTX-401	Resource Management Services Administration One-day course is designed for system engineers, integrators and customers responsible for planning and installing Citrix Resource Management Services. Because course is not platform-specific, it would appeal to administrators of Terminal Server, WinFrame or MetaFrame systems. Course covers the installation of Resource Management Services, administration of daily tasks, and configuration settings and options. Course teaches installation and configuration of ODBC databases for Resource Management Services, specifically SQL 6.5.
CTX-410	Advanced Citrix Server Implementation Two-day advanced course provides students with comprehensive knowledge of Citrix products and server-based computing. Focusing on key topics that impact deployment of Citrix products in all environments, CTX-410 emphasizes the enterprise, highlighting best practices and procedures.
CTX-508	Selling Citrix Solutions Course provides students with a general knowledge of Citrix technology, products and services, and prepares them for selling and marketing Citrix products. Students learn how to present Citrix technology as a solution to prospective customers. Preparation course for the Citrix Certified Sales Professional (CCSP) Exam. Available as self-study.
CTX-7120	Citrix Nfuse Administration One-day course enhances Web-related knowledge and skills by teaching how to implement and administer Citrix Nfuse in a Citrix MetaFrame environment. Targets Citrix MetaFrame administrators looking to expand their Web expertise and become CCEA-certified.
